At this point, we are still moving forward with our plans for the KCDA Summer convention in July. The KCDA board is monitoring the situation and will be meeting at the end of April to assess our position then. We will have to make a final call to move forward or cancel by mid-May in order to finish preparations for the conference. We will NOT move forward with sending out music until a final decision has been made regarding the convention, so **please DO NOT send in any participation fees or make hotel reservations at this time.** There will be a chance to catch up on these things once we decide to move forward. Congratulations to everyone who had students selected for these ensembles.
